

AT-HOME COVID SCREENING FOR STUDENTS AND STAFF

Help EPS keep our classrooms and facilities safe for everyone!

Students and staff are asked to self-screen for COVID symptoms **EVERY DAY** before coming to school or work.

Consider these questions for yourself, your student and everyone in your household:

Does anyone have fever, chills, or muscle pain?

Does anyone have a new or worsening cough?

Does anyone have difficulty breathing?

Has anyone experienced a new loss of taste or smell?

Does anyone have a sore throat, new onset of nasal congestion, or a runny nose?

Does anyone have vomiting, diarrhea, or nausea?

Does anyone have a new or severe headache or excessive fatigue?

Has anyone had close contact with someone who has tested positive for COVID?

Please pay attention to symptoms if you have traveled to or from an area where local health department is reporting large numbers of COVID-19 cases.

If the answer to any of these questions is “yes,”
please do not come to school.

Contact your health care provider or
call the school nurse for guidance.
