The NCAA approves core courses, NOT the high school

- Each high school has an approved core course list on the Eligibility Center's website.
- If the course is not on your high school list at the NCAA, it will not count as a core course
- If a course title on your transcript does not match the title on the NCAA's list, it will not count as a core course
- Meet with high school academic counselor to review your enrollment and your planned courses

Athletic Compliance Educational Session

College Admission Process vs. NCAA Eligibility

- Two separate determinations
- Being a NCAA qualifier does not automatically mean you will be admitted to an institution
- Being admitted to an institution does not mean you are eligible under NCAA requirements

Athletic Compliance Educational Session

Amateurism – Final Step

Prospects jeopardize NCAA amateur status by:

- Formally declaring into professional contract, compete with a professional team in hockey or skiing, or accept a salary
- Accepting prize money that exceeds expenses for an athletic event
- Entering into agreement or accepting benefits from agents
