Edina High School has long been recognized for offering rich and comprehensive curriculum for our students. On rare occasions, students may have interests and/or abilities that exceed the many varied courses and programs available. In an effort to provide students who are capable of extending beyond the range of our curriculum, we offer an independent study option. Proposals for such an experience may be made on this form. Approval will not be granted unless the proposal meets vigorous academic standards and well-defined assessment procedures. Additionally, the teacher/advisor must agree with the proposed plan and be willing to accept responsibility for its implementation and the awarding of a final grade and credit. All independent study agreements must meet with approval by the building principal prior to the semester of institution.

The completed application (accompanied by a current transcript and any addendums) should be submitted at the principal's office.

Course Name _____

Teacher Name _____

Semester of Study: Semester I _____ Semester II _____
