Table Get Acquainted Discussion

Think back to the time when you were the age that one of your children is now (pick any one, if you have a few). Share any or all answers.

Where did you live?

What school did you attend?

Did you have a favorite teacher or subject?

What were your favorite things to do?

What was your personality? Any funny family stories about you as a kid?

What did you hope to do when you “grew up”?

How close have you come to that dream?

How is your childhood similar to your child(ren)’s? How is it different?

What is something you hope your kid(s) can experience in their childhood?
