

## **Edina High School Creed**

Edina High School Creed In an effort to make Edina High School a more welcoming place for everyone, our student leadership groups have come together to draft a creed. The words are simple and yet powerful. They address the desire of our student body to build a school climate of respect, dignity, and inclusion. It is the hope of the students who created this creed that the words are not just words on a banner but will drive how all members of the EHS community treat each other on a daily basis.
