#### **INDEPENDENT AUDITOR'S REPORT**

To the School Board and Management of Independent School District No. 273 Edina, Minnesota

#### REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 273, Edina, Minnesota (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

#### **OPINIONS**

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **OTHER MATTERS**

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, supplemental information, and other district information, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements of the District. The accompanying Uniform Financial Accounting and Reporting Standards (UFARS) Compliance Table is presented for purposes of additional analysis as required by the Minnesota Department of Education, and is also not a required part of the basic financial statements of the District.

The supplemental information, Schedule of Expenditures of Federal Awards, and UFARS Compliance Table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and other district information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

#### **Prior Year Comparative Information**

We have previously audited the District's 2018 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated October 8, 2018. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

#### OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Minneapolis, Minnesota November 13, 2019

Management's Discussion and Analysis Fiscal Year Ended June 30, 2019

This section of Independent School District No. 273, Edina, Minnesota's (the District) annual financial statements presents management's narrative overview and analysis of the District's financial performance during the fiscal year ended June 30, 2019. Please read it in conjunction with the other components of the District's annual financial statements.

#### FINANCIAL HIGHLIGHTS

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at June 30, 2019 by \$42,129,927 (net position deficit). The District's total net position improved by \$29,341,519 during the fiscal year ended June 30, 2019.
- Government-wide revenues totaled \$144,735,363, and were \$29,341,519 greater than expenses of \$115,393,844.
- The General Fund's total fund balance (under the governmental fund presentation) increased \$446,464 from the prior year, compared to a \$3,203,949 decrease projected in the final budget.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual financial statements consists of the following parts:

- Independent Auditor's Report;
- Management's discussion and analysis;
- Basic financial statements, including the government-wide financial statements, fund financial statements, and the notes to basic financial statements;
- Required supplementary information; and
- Combining and individual fund statements and schedules, presented as supplemental information.

The following explains the two types of statements included in the basic financial statements:

#### GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. Net position—the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are all shown in one category titled "governmental activities." These activities, including regular and special education instruction, transportation, administration, food services, and community education, are primarily financed with state aids and property taxes.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds, rather than the District as a whole. Funds (Food Service and Community Service Special Revenue) that do not meet the threshold to be classified as major funds are called "nonmajor" funds. Detailed financial information for nonmajor funds is presented as supplemental information.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. For Minnesota schools, funds are established in accordance with Uniform Financial Accounting and Reporting Standards in accordance with statutory requirements and accounting principles generally accepted in the United States of America. Some funds are required by state law and by bond covenants. The District can establish other funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The District maintains the following kinds of funds:

Governmental Funds – The District's basic services are included in governmental funds, which generally focus on: 1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds financial statements provide a detailed *short-term* view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information (reconciliation schedules) immediately following the governmental funds financial statements that explain the relationship (or differences) between these two types of financial statement presentations.

**Proprietary Funds** – The District maintains one type of proprietary fund. Internal Service Funds are used as an accounting device to accumulate and allocate costs internally among the District's various functions. The District uses its Internal Service Fund to account for its self-insured employee dental program. These services have been included within governmental activities in the government-wide financial statements. Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1 is a summarized view of the District's Statement of Net Position:

| Table 1 Summary Statement of Net Position as of June 30, 2019 and 2018 |                 |                 |  |  |
|--|-----------------|-----------------|--|--|
|  | 2019            | 2018            |  |  |
| Assets   |                 |                 |  |  |
| Current and other assets   | \$ 115,151,833  | \$ 110,229,697  |  |  |
| Capital assets, net of depreciation                                    | 258,530,095     | 244,848,543     |  |  |
| Total assets   | \$ 373,681,928  | \$ 355,078,240  |  |  |
| Deferred outflows of resources   | \$ 91,317,446   | \$ 116,512,404  |  |  |
| Liabilities  |                 |                 |  |  |
| Current and other liabilities  | \$ 20,581,933   | \$ 24,658,039   |  |  |
| Long-term liabilities, including due within one year                   | 318,756,300     | 432,628,782     |  |  |
| Total liabilities  | \$ 339,338,233  | \$ 457,286,821  |  |  |
| Deferred inflows of resources  | \$ 167,791,068  | \$ 85,775,269   |  |  |
| Net position   |                 |                 |  |  |
| Net investment in capital assets                                       | \$ 64,290,068   | \$ 60,040,219   |  |  |
| Restricted   | 14,352,180      | 16,131,196      |  |  |
| Unrestricted   | (120,772,175)   | (147,642,861)   |  |  |
| Total net position   | \$ (42,129,927) | \$ (71,471,446) |  |  |

The District's financial position is the product of many factors. For example, the determination of the District's net investment in capital assets involves many assumptions and estimates, such as current and accumulated depreciation amounts. A conservative versus liberal approach to depreciation estimates, as well as capitalization policies, may produce a significant difference in the calculated amounts. Another major factor in determining net position as compared to fund balances are the liabilities for long-term severance, pension, and other post-employment benefits (OPEB), which impact the unrestricted portion of net position.

The decrease in current assets and increase in capital assets, net of depreciation was due to ongoing construction at various sites. The changes in deferred outflows/inflows of resources and long-term liabilities were mainly due to changes in the District's proportionate share of the state-wide Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) pensions plans.

Total net position improved by \$29,341,519 in the current year, which was also mainly the result of the changes in the two state-wide pension plans.

Table 2 presents a condensed version of the Statement of Activities of the District:

| Table 2 Summary Statement of Activities for the Years Ended June 30, 2019 and 2018 |                 |                 |  |  |
|--|-----------------|-----------------|--|--|

| Vocational education instruction   | 238,186         | 387,560         |  |  |
| Special education instruction  | 15,671,871      | 25,379,452      |  |  |
| Instructional support services   | 4,044,870       | 7,652,292       |  |  |
| Pupil support services   | 10,039,710      | 11,162,024      |  |  |
| Sites and buildings  | 23,315,175      | 19,989,575      |  |  |
| Fiscal and other fixed cost programs   | 252,778         | 306,141         |  |  |
| Food service   | 2,922,698       | 3,289,385       |  |  |
| Community service  | 7,444,575       | 7,720,547       |  |  |
| Interest and fiscal charges  | 6,186,183       | 6,232,703       |  |  |
| Total expenses   | 115,393,844     | 168,171,267     |  |  |
| Change in net position   | 29,341,519      | (20,981,501)    |  |  |
| Net position – beginning, restated   | (71,471,446)    | (50,489,945)    |  |  |
| Net position – ending  | \$ (42,129,927) | \$ (71,471,446) |  |  |

This format is similar to the fund financial statements, except it is presented on an accrual basis of accounting, and includes all governmental activities of the District. This statement includes depreciation expense, but excludes capital asset purchase costs, debt proceeds, and the repayment of debt principal.

Total revenues for fiscal year 2019 were \$2,454,403 less than last year, mainly due to the sale of the District's former transportation facility in the prior year. Expenses decreased \$52,777,423 compared to fiscal year 2018 levels, mainly due to the change in the PERA and the TRA multiple-employer defined benefit pension plans mentioned earlier, along with natural inflationary increases.

Figures A and B show further analysis of these revenue sources and expense functions:

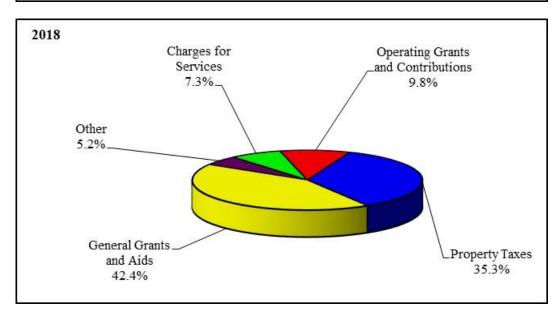

Charges for Services

Other
2.0%

General Grants
and Aids
41.2%

Property Taxes
37.7%

Figure A – Sources of Revenues for Fiscal Years 2019 and 2018

The largest share of the District's revenue is received from the state, including the aid formula and most of the operating grants.

Property taxes are the next largest source of funding. The level of funding property tax sources provide is not only dependent on taxpayers of the District by way of operating and building referenda, but also by decisions made by the Legislature in the mix of state aid and local effort in a variety of funding formulas.

Instruction

13.6%

Figure B – Expenses for Fiscal Years 2019 and 2018

The District's expenses are predominately related to educating students. Programs (or functions) such as elementary and secondary regular instruction, vocational education instruction, special education instruction, and instructional support services are directly related to classroom instruction, while the rest of the programs support instruction and other necessary costs to operate the District.

The significant year-to-year change in the percentage of expenses incurred in several program areas shown above was attributable to the change in expenses related to the two state-wide pension plans, which caused greater fluctuations in program areas with a higher proportion of salaries.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is also reflected in its governmental funds. Table 3 shows the change in total fund balances in each of the District's governmental funds:

|  | mental | ble 3<br>Fund Baland<br>2019 and 201 |                  |                       |
|--|--------|--------------------------------------|------------------|-----------------------|
|  |        | 2019                                 | <br>2018         | Increase<br>Decrease) |
| Major funds                              |        |                                      |                  |                       |
| General                                  |        | 14,182,466                           | \$<br>13,736,002 | \$<br>446,464         |
| Capital Projects – Building Construction |        | 25,077,215                           | 19,804,605       | 5,272,610             |
| Debt Service                             |        | 2,596,972                            | 1,539,589        | 1,057,383             |
| Nonmajor funds                           |        |                                      |                  |                       |
| Food Service Special Revenue             |        | 1,100,255                            | 1,006,569        | 93,686                |
| Community Service Special Revenue        |        | 932,204                              | <br>740,156      | <br>192,048           |
| Total governmental funds                 | \$ 4   | 43,889,112                           | \$<br>36,826,921 | \$<br>7,062,191       |

In the General Fund, nonspendable fund balances for prepaid items decreased \$683,294, due to the timing of employee health insurance premium payments. Fund balances restricted for various purposes decreased \$475,524, mainly due to the utilization resources restricted for operating capital. Fund balances committed by School Board resolution for cash flow needs increased \$109,795. Fund balances assigned for various purposes decreased \$534. Unassigned fund balances, which include Uniform Financial Accounting and Reporting Standards fund balance restrictions with deficit balances, increased \$1,496,021 during the year.

The increase in the Capital Projects – Building Construction Fund balance primarily reflects the issuance of the 2019A Facilities Maintenance Bonds, the remainder of which remain restricted for long-term facilities maintenance capital projects at year-end.

#### **General Fund**

The General Fund is used to account for all revenues and expenditures of the District not accounted for elsewhere. The General Fund is used to account for: K–12 educational activities, district instructional and student support programs, expenditures for the superintendent, district administration, normal operations and maintenance, pupil transportation, capital expenditures, and other legal school district expenditures not specifically designated to be accounted for in any other fund.

Table 4 summarizes the amendments to the General Fund budget:

|                                       |                 | Table 4<br>General Fund<br>Budget |                        |                   |
|---------------------------------------|-----------------|-----------------------------------|------------------------|-------------------|
|                                       | Original Budget | Final Budget                      | Increase<br>(Decrease) | Percent<br>Change |
| Revenue                               | \$ 115,163,674  | \$ 115,074,659                    | \$ (89,015)            | (0.1%)            |
| Expenditures and other financing uses | \$ 114,512,493  | \$ 118,278,608                    | \$ 3,766,115           | 3.3%              |

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to above as the original budget. In the fall and spring, the District amends the budget for known changes in circumstances such as enrollment levels, legislative funding, and employee contract settlements. Between the original and final budget, the District revised the expenditure budget for actual staffing and prior year carryover balances.

Table 5 summarizes the operating results of the General Fund:

|  |                           | Table 5<br>General Fund<br>perating Results |                    |                        |                       |
|--|---------------------------|---|--------------------|------------------------|-----------------------|
|  | 2019 Actual               | Over (Under) F                              | nal Budget Percent | Over (Under)<br>Amount | Prior Year<br>Percent |
| Revenue  | \$117,099,199             | \$ 2,024,540                                | 1.8%               | \$<br>6,249,311        | 5.6%                  |
| Expenditures and other financing uses  Net change in fund balances | 116,652,735<br>\$ 446,464 | \$ (1,625,873)                              | (1.4%)             | \$<br>846,694          | 0.7%                  |

Actual revenues for fiscal year 2019 were 1.8 percent over budget. The revenue variance was primarily in other local revenue sources, due to an increase in interest, rent, and fees from patrons. The expenditure variance in 2019 was spread across several programs, with the largest savings occurring in instructional support services and sites and buildings, primarily due an unspent budget for capital contingencies and more long-term facilities maintenance projects being expended from the Capital Projects – Building Construction Fund than anticipated.

An increase in the District's voter-approved operating referendum tax levy, along with additional state funding for general education and special education, contributed to the 5.6 percent increase in total General Fund revenue.

The increase in expenditures and other financing uses is due to different long-term facility maintenance projects from the previous year, along with growth in remaining expenditures consistent with regional inflationary trends.

#### **Food Service Special Revenue Fund**

Food Service Special Revenue Fund revenue for fiscal year 2019 totaled \$3,040,206, and expenditures were \$2,946,520. The June 30, 2019 fund balance is \$1,100,255, an increase of \$93,686 from fiscal year 2018, compared to a budgeted decrease of \$211,312. The variance to budget was due to the combination of regular-priced and ala carte meals sales exceeding budget, while purchased service costs paid to the District's contracted food service provider were less than anticipated

#### **Community Service Special Revenue Fund**

Community Service Special Revenue Fund revenue and other financing sources for fiscal year 2019 totaled \$8,117,707, and expenditures were \$7,925,659. The June 30, 2019 fund balance is \$932,204, an increase of \$192,048 from fiscal year 2018, compared to a budgeted increase of \$188,273. Both revenue and expenditures exceeded budget, due to increased program participation.

#### **Capital Projects – Building Construction Fund**

Capital Projects – Building Construction Fund revenue and other financing sources for fiscal year 2019 totaled \$33,395,104, and expenditures were \$28,122,494. The June 30, 2019 fund balance is \$25,077,215, an increase of \$5,272,610 from fiscal year 2018, compared to a planned increase of \$6,719,070. This variance was mainly due to the timing of capital projects.

#### **Debt Service Fund**

The Debt Service Fund is used to record revenues and expenditures for a school district's outstanding bonded indebtedness, whether for building construction, operating capital, or for initial or refunding bonds. Debt Service Fund revenue and other financing sources for fiscal year 2019 totaled \$15,729,576, and expenditures were \$14,672,193. The June 30, 2019 fund balance is \$2,596,972, an increase of \$1,057,383 from fiscal year 2018, as compared to a \$514,684 increase anticipated in the budget. This variance was mainly attributable to capitalized interest from the District's 2019A bond issue that will be used to make the first interest payment on the new bonds.

#### CAPITAL ASSETS AND LONG-TERM LIABILITIES

#### **Capital Assets**

By the end of 2019, the District had invested \$258,530,095 in a broad range of capital assets, including school buildings, athletic facilities, and technology and equipment (see Table 6). Total depreciation expense for this year was \$10,132,336.

Table 6 shows the District's capital assets, together with changes from the previous year. The table also shows the total depreciation expense for fiscal years ended June 30, 2019 and 2018.

|                               | Table 6<br>Capital Assets |                |               |
|-------------------------------|---------------------------|----------------|---------------|
|                               | 2019                      | 2018           | Change        |
| Land                          | \$ 5,240,001              | \$ 5,240,001   | \$ -          |
| Land improvements             | 25,704,218                | 10,415,558     | 15,288,660    |
| Buildings                     | 298,445,773               | 206,025,067    | 92,420,706    |
| Furniture and equipment       | 18,787,927                | 16,164,663     | 2,623,264     |
| Construction in progress      | 46,163,614                | 132,682,356    | (86,518,742)  |
| Less accumulated depreciation | (135,811,438)             | (125,679,102)  | (10,132,336)  |
| Total                         | \$ 258,530,095            | \$ 244,848,543 | \$ 13,681,552 |
| Depreciation expense          | \$ 10,132,336             | \$ 5,924,684   | \$ 4,207,652  |

The changes presented in the table above reflect the ongoing activity and completion of projects at district sites during fiscal year 2019. The most significant change from last year is in construction in progress related to previously issued building bonds and the 10-year long-term facilities maintenance plan.

The District capitalizes furniture, equipment, and also land improvements valued at \$5,000 or more.

#### **Long-Term Liabilities**

Table 7 illustrates the components of the District's long-term liabilities, together with the change from the prior year:

| Table 7 Outstanding Long-Term Liabilities |                |                |                  |  |
|---|----------------|----------------|------------------|--|
|   | 2019           | 2018           | Change           |  |
| General obligation bonds payable          | \$ 191,720,000 | \$ 175,050,000 | \$ 16,670,000    |  |
| Certification of participation payable    | 950,000        | 1,055,000      | (105,000)        |  |
| Unamortized premiums                      | 15,481,849     | 15,615,362     | (133,513)        |  |
| Capital leases payable                    | 1,615,060      | 1,748,376      | (133,316)        |  |
| Severance benefits payable                | 694,605        | 616,230        | 78,375           |  |
| Net pension liabilities                   | 89,050,545     | 218,632,925    | (129,582,380)    |  |
| Total OPEB liability                      | 19,244,241     | 19,910,889     | (666,648)        |  |
| Total                                     | \$ 318,756,300 | \$ 432,628,782 | \$ (113,872,482) |  |

The increase in general obligation bonds was due to the District issuing the 2019A General Obligation Facilities Maintenance Bond. The decrease in certificates of participation payable, and capital leases payable were due to scheduled principal repayments during fiscal year 2019. The difference in the net pension and OPEB liabilities reflects the changes in the District's proportionate share of the state-wide PERA and TRA pension plans, along with changes in the District's pension and OPEB plans.

The state limits the amount of general obligation debt the District can issue to 15 percent of the market value of all taxable property within the District's corporate limits (see Table 8).

| Table<br>Limitations                  | -                          |
|---------------------------------------|----------------------------|
| District's market value<br>Limit rate | \$ 10,134,864,875<br>15.0% |
| Legal debt limit                      | \$ 1,520,229,731           |

Additional details of the District's capital assets and long-term debt activity can be found in the notes to basic financial statements.

#### FACTORS BEARING ON THE DISTRICT'S FUTURE

With the exception of the voter-approved excess operating referendum, the District is dependent on the state of Minnesota for its revenue authority. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instructional program needs and increased costs due to inflation.

The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the state of Minnesota for educational resources. The Legislature has added \$126, or 2 percent, per pupil to the basic general education funding formula for fiscal year 2020, and an additional \$129, or 2 percent, per pupil to the formula for fiscal year 2021.

Annually, the School Board approves a rolling 10-year long-term facilities maintenance plan. Goals of the plan are to support learning environment and initiatives for students, staff, and community; increase long-term facilities funding of annual deferred maintenance to meet ongoing needs; address backlog of deferred maintenance in buildings; improve energy efficiency; support strategic plan initiatives; and minimize impact to taxpayers. In conformance with this 10-year plan, the District issued in Spring 2019 \$24.1 million in long-term facilities maintenance bonds. The plan invests approximately \$15.0 million biannually in the remaining years of the plan to improve mechanical systems, exterior envelope, and paving throughout the District.

In Fall 2019, while refinancing 2011 Buildings Bonds, the District maintained its top credit rating from one of the leading global rating agencies. Moody's Investor Service reaffirmed its Aaa rating of the District, the highest assigned by Moody's. The Aaa rating allows the District to obtain the lowest interest rates available when borrowing money by issuing bonds and certificates. The District is one of three districts in the state to have the highest rating.

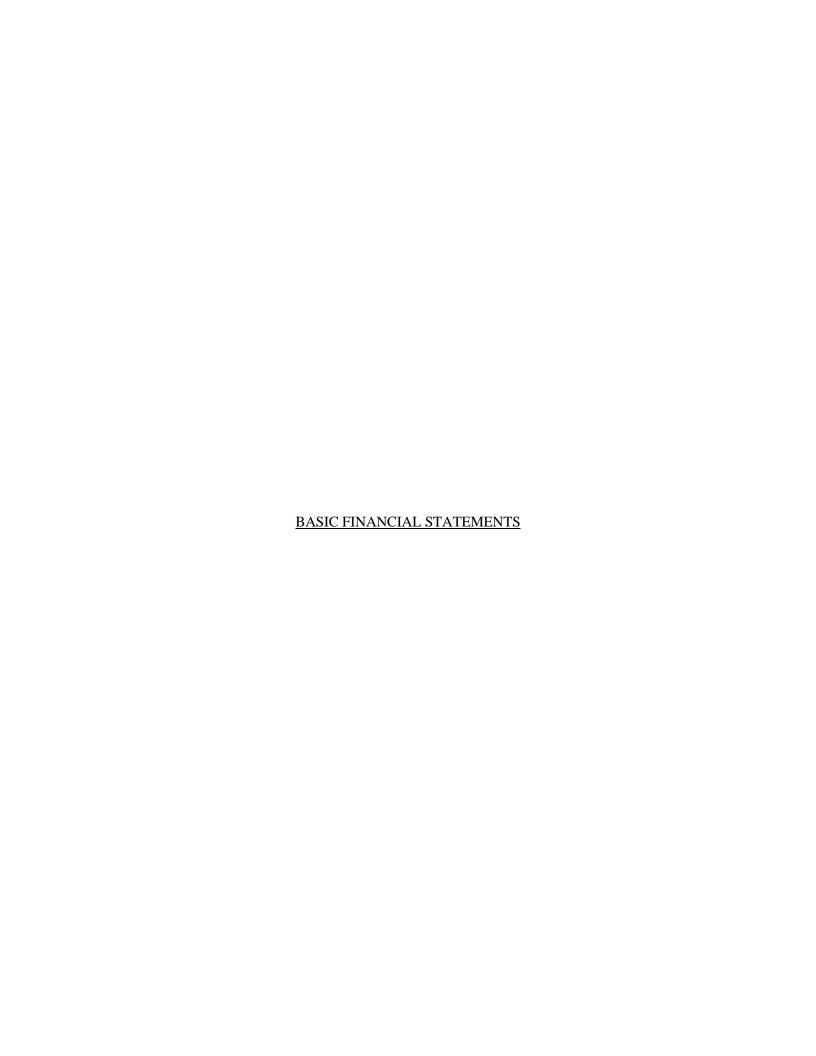

In May 2015, the District was successful in its request to issue \$124.9 million in bonds to support a number of capital projects. Funds will be used to implement the Next Generation of Edina Public Schools Strategic Plan focusing both on short-term and long-term facility needs. The remaining project will be completed by Fall 2019.

In November 2017, the District was successful in its request to renew and increase the existing operating levy scheduled to sunset in 2018–2019. The voters approved the increase in a two-step process, with an increase for taxes payable in 2018 of \$445 per pupil unit, and an increase of \$217.61 per pupil unit for taxes payable starting in 2020. The increase in the operating referendum has maintained the quality of programs and services expected in Edina.

The District strives to maintain its longstanding commitment to academic excellence and educational opportunity for learners within a framework of financial fiduciary responsibility.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These financial statements are designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about these statements or need additional financial information, contact the Business Services Department, Independent School District No. 273, 5701 Normandale Road, Edina, Minnesota 55424, or visit the District's website at www.edinaschools.org.

# Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds Year Ended June 30, 2019

(With Partial Comparative Information for the Year Ended June 30, 2018)

|   | 2019          | 2018            |
|---|---------------|-----------------|
| Total net change in fund balances – governmental funds  | \$ 7,062,191  | \$ (44,834,743) |
| Amounts reported for governmental activities in the Statement of Activities are different because:  |               |                 |
| Capital assets are recorded in net position and the cost is allocated over their estimated useful lives as depreciation expense. However, fund balances are reduced for the full cost of capital outlays at the time of purchase.             |               |                 |
| Capital outlays   | 23,813,888    | 52,168,196      |
| Depreciation expense  | (10,132,336)  | (5,924,684)     |
| Net book value of capital asset disposals   | _             | (24,467)        |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position of the internal service funds is included in the governmental   |               |                 |
| activities in the Statement of Activities.  | 5,238         | (3,415)         |
| The amount of debt issued is reported in the governmental funds as a source of financing. Debt obligations are not revenues in the Statement of Activities, but rather constitute long-term liabilities. General obligation bonds payable     | (24,075,000)  | _               |
| Repayment of long-term debt does not affect the change in net position. However, it reduces fund  |               |                 |
| balances.   |               |                 |
| General obligation bonds and certificates of participation  | 7,510,000     | 7,280,000       |
| Capital leases payable  | 133,316       | 128,860         |
| Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.   | 24,623        | 53,989          |
| Debt issuance premiums and discounts are included in the change in net position as they are amortized over the life of the debt. However, they are included in the change in fund balances upon issuance as other financing sources and uses. | 133,513       | 1,330,091       |
| Certain expenses are included in the change in net position, but do not require the use of current funds, and are not included in the change in fund balances.  |               |                 |
| Severance benefits payable  | (78,375)      | (86,274)        |
| Net pension liabilities   | 129,582,380   | 40,104,515      |
| Total OPEB liability  | 666,648       | (885,597)       |
| The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial   |               |                 |
| statements.  Deferred outflows of resources – pension plan deferments   | (25,224,208)  | (38,888,510)    |
| Deferred outflows of resources – Pension plan deferments  Deferred outflows of resources – OPEB plan deferments   | 29,250        | 28,342          |
| Deferred inflows of resources – Or EB plan deferments  Deferred inflows of resources – pension plan deferments  | (78,933,129)  | (31,290,625)    |
| Deferred inflows of resources – persion plan deferments  Deferred inflows of resources – OPEB plan deferments   | (1,307,176)   | (31,270,023)    |
| Deferred inflows of resources – unavailable revenue – delinquent taxes  | 130,696       | (137,179)       |
| Change in net position – governmental activities  | \$ 29,341,519 | \$ (20,981,501) |

# Statement of Revenue, Expenditures, and Changes in Fund Balances Budget and Actual General Fund Year Ended June 30, 2019

Notes to Basic Financial Statements June 30, 2019

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Basis of Organization

Independent School District No. 273, Edina, Minnesota (the District) was formed and operates pursuant to applicable Minnesota laws and statutes. The District serves pre-kindergarten through 12th grade students attending the District either as a resident of the District or through an open enrollment option election. It is governed by a School Board elected by voters of the District to four-year terms. The District's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### **B.** Reporting Entity

The District's policy is to include in the financial statements all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no organizations considered to be component units of the District.

Extracurricular student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside of school hours. In accordance with Minnesota Statutes, the District's School Board has elected not to control or be otherwise financially accountable with respect to the underlying extracurricular activities. Accordingly, the extracurricular student activity accounts are not included in these financial statements.

#### C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District. Generally, the effect of material interfund activity has been removed from the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory tax shift described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Depreciation expense is included as a direct expense in the functional areas that utilize the related capital assets. Interest on debt is considered an indirect expense and is reported separately on the Statement of Activities.

#### D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

- 1. Revenue Recognition Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District generally considers revenues to be available if they are collected within 60 days after year-end. Grants and similar revenues are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies according to Minnesota Statutes. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.
- 2. Recording of Expenditures Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. In the General Fund, capital outlay expenditures are included within the applicable functional areas.

Internal service funds are presented in proprietary fund financial statements. Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as described earlier in these notes. Because the principal users of the internal services are the District's governmental activities, the internal service funds are consolidated into the governmental column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. An internal service fund accounts for the financing of goods or services provided by one department to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The principal operating revenue of the District's Internal Service Fund is charges to other district funds for service. Operating expenses for the Internal Service Fund include the costs of providing services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# **Description of Funds**

The existence of the various district funds has been established by the Minnesota Department of Education (MDE). Each fund is accounted for as an independent entity. A description of the funds included in this report is as follows:

#### **Major Governmental Funds**

**General Fund** – The General Fund is the government's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

**Capital Projects – Building Construction Fund** – The Capital Projects – Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue, capital project levies, or the Long-Term Facilities Maintenance Program.

**Debt Service Fund** – The Debt Service Fund is used to account for the accumulation of resources for, and payment of, general obligation debt principal, interest, and related costs.

# **Nonmajor Governmental Funds**

**Food Service Special Revenue Fund** – The Food Service Special Revenue Fund is used to account for the District's child nutrition program.

**Community Service Special Revenue Fund** – The Community Service Special Revenue Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services.

# **Proprietary Funds**

**Internal Service Fund** – The District's Internal Service Fund is used to account for dental insurance offered by the District to its employees as a self-insured plan.

# E. Budgetary Information

The School Board adopts an annual budget for all governmental funds prepared on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level. Budgeted appropriations lapse at year-end. Actual expenditures for the year ended June 30, 2019 exceeded budgeted appropriations by \$262,010 and \$2,803,578 in the Community Service Special Revenue Fund and Capital Projects – Building Construction Fund, respectively. Revenues and other financing sources in excess of budget, along with available fund balances, financed these variances.

# F. Cash and Temporary Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund. Bond proceeds recorded in the Capital Projects – Building Construction Fund are not pooled, and earnings on these proceeds are allocated directly to the fund.

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with an original maturity from the time of purchase by the District of three months or less to be cash equivalents. The proprietary (internal service) fund's equity in the government-wide cash and investment management pool is considered to be cash equivalent.

Investments are generally stated at fair value, except for investments in certain external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less are also reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 2 for the District's recurring fair value measurements as of year-end.

#### G. Receivables

When necessary, the District utilizes an allowance for uncollectible accounts to value its receivables. However, the District considers all of its current receivables to be collectible. The only receivables not expected to be fully collected within one year are property taxes receivable.

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are reported as expenses/expenditures at the time of consumption.

# I. Property Taxes

The majority of district revenue is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between property taxes and state aids by the Legislature based on education funding priorities.

Property tax levies are certified to the County Auditor in December of each year for collection from taxpayers in May and October of the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on property on the following January 1. The county generally remits taxes to the District at periodic intervals as they are collected.

Generally, property taxes are recognized as revenue by the District in the fiscal year that begins midway through the calendar year in which the tax levy is collectible. To help balance the state budget, the Minnesota Legislature utilizes a tool referred to as the "tax shift," which periodically changes the District's recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year's levy as current year revenue, allowing the state to reduce the amount of aid paid to the District. Currently, the mandated tax shift recognizes \$3,742,228 of the property tax levy collectible in 2019 as revenue to the District in fiscal year 2018–2019. The remaining portion of the taxes collectible in 2019 is reported as a deferred inflow of resources (property taxes levied for subsequent year).

Taxes which remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is reported as a deferred inflow of resources (unavailable revenue) in the fund financial statements because it is not known to be available to finance the operations of the District in the current year.

# J. Capital Assets

Capital assets are capitalized at historical cost, or estimated historical cost if purchased or constructed. Donated assets are recorded at estimated acquisition value at the date of donation. The District defines capital assets as those with an initial, individual cost of \$5,000 or more, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The District does not possess material amounts of infrastructure capital assets. Such items are considered to be part of the cost of buildings or other improvable property.

Capital assets are reported in the government-wide financial statements, but not in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since assets are generally sold for an immaterial amount or scrapped when declared as no longer fit or needed for public school purposes by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings and 5 to 15 years for furniture and equipment. Land and construction in progress are not depreciated.

# **K.** Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. If material, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums or discounts on debt issuances are reported as other financing sources or uses, respectively.

#### L. Compensated Absences

Under the terms of union contracts, certain employees accrue vacation and sick leave at varying rates, portions of which may be carried over to future years. Employees are reimbursed for any unused, accrued vacation and related benefits upon termination. Unused sick leave enters into the calculation of severance benefits for some employees upon termination. Compensated absences are accrued in governmental fund financial statements only to the extent they have been used or otherwise matured prior to year-end. Compensated absences, if material, are accrued when earned in the government-wide financial statements.

#### M. Severance Benefits

The District provides lump sum severance benefits to eligible employees in accordance with provisions in certain collectively bargained contracts. Eligibility for these benefits is based on years of service and/or minimum age requirements. The severance benefit is calculated by converting a portion of unused accumulated sick leave. No individual can receive severance benefits in excess of one year's salary.

Severance benefits payable are recorded as a liability in the government-wide financial statements as they are earned and it becomes probable they will vest at some point in the future, and are accrued in the governmental fund financial statements as the liability matures, due to employee termination.

#### N. State-Wide Pension Plans

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA) and additions to/deductions from the PERA's and the TRA's fiduciary net positions have been determined on the same basis as they are reported by the PERA and the TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Special School District No. 1, Minneapolis Public Schools. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into the TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teachers Retirement Fund Association in 2015.

The PERA has a special funding situation created by a direct aid contribution made by the state of Minnesota. The direct aid is a result of the merger of the Minneapolis Employees Retirement Fund into the PERA on January 1, 2015.

# O. Risk Management and Self-Insurance

- 1. General Insurance The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District's insurance coverage in the current fiscal year.
- 2. Self-Insurance The District established an Internal Service Fund to account for and finance its uninsured risk of loss for its employee dental plan. Under this plan, the District provides coverage to participating employees and their dependents for various dental costs as described in the plan.

The District makes premium payments to the Internal Service Fund on behalf of program participants based on provisional rates determined by insurance company estimates of monthly claims paid for each coverage class, plus stop-loss insurance premium costs and administrative service charges.

District claim liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Because actual claim liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claim liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Changes in the balance of dental claim liabilities were as follows:

|                       |     |             | Cu           | rrent Year   |    |         |          |           |  |
|-----------------------|-----|-------------|--------------|--------------|----|---------|----------|-----------|--|
|                       | В   | eginning    | $\mathbf{C}$ | laims and    |    |         | В        | alance at |  |
| Fiscal Year of Fiscal |     | f Fiscal    | (            | Changes      |    | Claim   | Fiscal   |           |  |
| Ended June 30,        | Yea | r Liability | in           | in Estimates |    | ayments | Year-End |           |  |
|                       |     |             |              |              |    |         |          |           |  |
| 2018                  | \$  | 31,371      | \$           | 876,069      | \$ | 869,912 | \$       | 37,528    |  |
| 2019                  | \$  | 37,528      | \$           | 867,493      | \$ | 863,143 | \$       | 41,878    |  |

#### P. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The District reports deferred outflows and inflows of resources related to pensions and other post-employment benefit plans (OPEB) reported in the government-wide Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, difference between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

Property taxes levied for subsequent years, which represents property taxes received or reported as a receivable before the period for which the taxes are levied, are reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the governmental funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied, and in the governmental fund financial statements during the year for which they are levied, if available.

Unavailable revenue from property taxes arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available.

#### **Q.** Interfund Transfers

The General Fund transferred \$62,117 to the Community Service Special Revenue Fund to help finance early childhood family education program costs, and \$3,151,386 to the Capital Projects — Building Construction Fund to allocate revenue that will be expended by the Capital Projects — Building Construction Fund for long-term facilities maintenance projects. Such interfund transfers are reported in the fund financial statements, but are eliminated in the government-wide financial statements.

#### R. Net Position

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** Consists of net position restricted related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- Unrestricted Net Position All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

#### S. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- Committed Consists of internally imposed constraints that are established by resolution of the School Board. Those committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- Assigned Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board resolution, the District's superintendent and director of business services are authorized to establish assignments of fund balance.
- **Unassigned** The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, and then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

#### T. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the financial statements during the reporting period. Actual results could differ from those estimates.

#### U. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2018, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### **NOTE 2 – CASH AND INVESTMENTS**

#### A. Components of Cash and Investments

Cash and temporary investments at year-end consist of the following:

| Deposits<br>Investments        | \$<br>10,270,622<br>65,072,108 |
|--------------------------------|--------------------------------|
| Cash and temporary investments | \$<br>75,342,730               |

# NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

#### **B.** Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits at depository banks authorized by the School Board, including checking accounts, savings accounts, and nonnegotiable certificates of deposit.

The following is considered the most significant risk associated with deposits:

**Custodial Credit Risk** – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The District's deposit policies do not further limit depository choices.

The year-end bank balances of the District's deposits totaled \$10,270,622, which were fully covered by federal deposit insurance or collateral held by the District's agent in the District's name.

#### C. Investments

The District has the following investments at year-end:

|                                     |        |        | Fair Value     | Interest Rate Risk - Maturity |               |                  |                 |        |         |       |            |

| Total investments                   |        |        |                |                               |               |                  |                 |        |         | \$    | 65,072,108 |

Investment pools managed by MNTrust and the Minnesota School District Liquid Asset Fund (MSDLAF) are external investment pools regulated by Minnesota Statutes not registered with the Securities and Exchange Commission. The District's investments in these investment pools are measured at the net asset value per share provided by the pools, which are based on amortized cost methods that approximate fair value. There are no restrictions or limitations on withdrawals from the MNTrust Investment Shares Portfolio or the MSDLAF – Liquid Class investment pools. Investments in the MSDLAF MAX Class must be deposited for a minimum of 14 calendar days, with the exception of direct investments of funds distributed by the state of Minnesota. Withdrawals prior to the 14-day restriction period may be subject to a penalty and there is a 24-hour hold on all requests for redemptions. MNTrust Term Series Portfolios are intended to be held until maturity; a participant's withdrawal prior to maturity will require seven days' notice of redemption and will likely carry a penalty, which could be substantial in that it would be intended to allow the MNTrust Term Series Portfolio to recoup any associated penalties, charges, losses, or other costs associated with the early redemption of the investments therein.

# NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – This is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Although the District's investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the District's investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated "A" or better; revenue obligations rated "AA" or better; general obligations of the Minnesota Housing Finance Agency rated "A" or better; bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers.

The District's investment policy also requires that commercial paper be of corporations organized in the United States; having at least \$1 billion of outstanding corporate paper obligations; rated at the highest classification by Standard and Poor's (A-1) or Moody's Investment Services (P-1); and not be on credit watch for potential downgrades. No more than 50 percent of the District's investments can be in commercial paper on any given day. District policy does not allow investments in derivatives.

Concentration Risk – This is the risk associated with investing a significant portion of the District's investments (considered 5.0 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The District's policies limit the investment on any given day, in any given corporation, to \$1 million.

**Interest Rate Risk** – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The District's investment policies do not limit investment maturities; however, the District considers such things as interest rates and cash flow needs when purchasing investments.

# **NOTE 3 – CAPITAL ASSETS**

Capital assets activity for the year is as follows:

|   | Balance –<br>Beginning<br>of Year                             | Additions   | Deletions      | Completed<br>Construction             | Balance –<br>End of Year   |

#### **NOTE 4 – LONG-TERM LIABILITIES**

# A. General Obligation Bonds Payable

The District currently has the following general obligation bonds payable outstanding:

| Issue                                     | Issue Date | Interest Rate | F  | ace/Par Value | Final<br>Maturity | <br>Principal<br>Outstanding |
|---|------------|---------------|----|---------------|-------------------|------------------------------|
| Refunding bonds                           | 10/05/2011 | 4.00-5.00%    | \$ | 50,370,000    | 02/01/2024        | \$<br>26,655,000             |
| Alternative facilities bonds              | 02/21/2013 | 2.00-3.00%    | \$ | 11,775,000    | 02/01/2026        | 11,575,000                   |
| Alternative facilities bonds              | 12/30/2014 | 3.00-3.50%    | \$ | 6,050,000     | 02/01/2035        | 6,050,000                    |
| Building bonds                            | 07/22/2015 | 4.00-5.00%    | \$ | 113,385,000   | 02/01/2037        | 107,015,000                  |
| Facilities maintenance and building bonds | 04/13/2017 | 2.50-4.00%    | \$ | 16,350,000    | 02/01/2031        | 16,350,000                   |
| Facilities maintenance bonds              | 05/02/2019 | 3.00-5.00%    | \$ | 24,075,000    | 02/01/2036        | 24,075,000                   |
| Total general obligation bonds payable    |            |               |    |               |                   | \$<br>191,720,000            |

These bonds were issued to finance acquisition and/or construction of capital facilities or to finance (refund) prior bond issues. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of these bonds. The annual future debt service levies authorized are equal to 105 percent of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law.

## **B.** Certificates of Participation Payable

|                                     |            |               |     |             | Final      | P  | Principal  |
|-------------------------------------|------------|---------------|-----|-------------|------------|----|------------|
| Issue                               | Issue Date | Interest Rate | Fac | e/Par Value | Maturity   | Ou | itstanding |
| •                                   |            |               |     |             |            |    |            |
| 2011C Certificates of Participation | 11/17/2011 | 2.00-3.75%    | \$  | 1,615,000   | 04/01/2027 | \$ | 950,000    |

The District sold certificates of participation under Minnesota Statutes § 123B.51 to finance the construction of an addition to South View Middle School. Scheduled future ad valorem lease obligation tax levies will be made to finance the retirement of principal and interest payments on the certificates. These certificates of participation are being paid by the General Fund.

# C. Capital Leases Payable

The District entered into two capital lease agreements to finance the construction of several building additions. The leases have an effective interest rate of 3.43 percent, and call for annual principal and interest payments through January 15, 2029. The leases are being paid through the General Fund. The leased assets were recorded at \$2,233,000 (the present value of future minimum lease payments as of the inception dates of the leases). Total accumulated depreciation on these assets at June 30, 2019 was \$223,300.

#### D. Other Long-Term Liabilities

The District offers a number of benefits to its employees, including severance benefits for eligible employees based on unused sick leave. Such benefits are paid primarily from the General Fund.

#### **NOTE 4 – LONG-TERM LIABILITIES (CONTINUED)**

# **E.** Minimum Debt Payments

Minimum annual principal and interest payments to maturity for general obligation bonds, certificates of participation, and capital leases are as follows:

| General Obligation Year Ending Bonds Payable |                |               |    | Certificates o | icipation |          | Capital Leases |           |    |          |
|--|----------------|---------------|----|----------------|-----------|----------|----------------|-----------|----|----------|
| June 30,                                     | Principal      | Interest      | F  | Principal      |           | Interest |                | Principal |    | Interest |
| 2020   | \$ 8,140,000   | \$ 7,485,370  | \$ | 105,000        | \$        | 31,975   | \$             | 137,928   | \$ | 54,224   |
| 2021   | 7,710,000      | 7,289,975     |    | 110,000        |           | 28,825   |                | 142,700   |    | 49,452   |

#### **NOTE 5 – FUND BALANCES**

The table on the following page presents a breakdown of governmental fund equity components as defined earlier in these notes. State mandated restrictions that have an accumulated deficit at June 30, if any, are included in unassigned fund balance in the District's financial statements in accordance with accounting principles generally accepted in the United States of America. However, a description of any deficit balance restrictions is included herein since the District has specific authority to future resources for such deficits.

The School Board has formally adopted a fund balance policy regarding maintaining a minimum unassigned fund balance for the General Fund. The policy establishes a minimum unassigned General Fund balance goal of 6.0 percent of the unassigned General Fund expenditures. At June 30, 2019, the unassigned fund balance (excluding restricted account deficits) of the General Fund was 7.2 percent of budgeted unassigned expenditures for fiscal 2020.

# NOTE 5 – FUND BALANCES (CONTINUED)

At June 30, 2019, a summary of the District's governmental fund balance classifications are as follows:

|                                   | _Ge  | neral Fund | Proj<br>Bui<br>Const | pital<br>ects –<br>lding<br>truction<br>und | D  | ebt Service<br>Fund | 1  | Nonmajor<br>Funds | Total            |
|-----------------------------------|------|------------|----------------------|---|----|---------------------|----|-------------------|------------------|
| Nonspendable                      |      |            |                      |   |    |                     |    |                   |                  |

#### NOTE 6 – DEFINED BENEFIT PENSION PLANS

District employees participate in three defined benefit pension plans described later in these notes, including two state-wide, cost-sharing, multiple-employer plans, and a single-employer plan administered by the District. The following is a summary of the net pension liabilities, deferred outflows and inflows of resources, and pension expense reported for these plans as of and for the year ended June 30, 2019:

| Pension Plans   | N  | Net Pension<br>Liabilities             | o  | Deferred<br>Outflows<br>f Resources  | (  | Deferred<br>Inflows<br>of Resources | Pension<br>Expense                         |
|---|----|--|----|--------------------------------------|----|-------------------------------------|--|
| State-wide, multiple-employer – PERA<br>State-wide, multiple-employer – TRA<br>Single-employer – District | \$ | 16,065,821<br>60,680,123<br>12,304,601 | \$ | 3,926,168<br>85,105,408<br>1,274,913 | \$ | 3,983,642<br>109,353,276<br>425,540 | \$<br>858,784<br>(25,118,462)<br>1,202,437 |
| Total   | \$ | 89,050,545                             | \$ | 90,306,489                           | \$ | 113,762,458                         | \$<br>(23,057,241)                         |

#### NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

# A. Plan Descriptions

The District participates in the following cost-sharing, multi-employer defined benefit pension plans administered by the PERA and the TRA. The PERA's and the TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. The PERA's and the TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code (IRC).

# 1. General Employees Retirement Fund (GERF)

The PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

All full-time and certain part-time employees of the District other than teachers are covered by the GERF. GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

#### 2. Teachers Retirement Association (TRA)

The TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. The TRA is a separate statutory entity, administered by a Board of Trustees. The Board of Trustees consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul Public Schools or Minnesota State Colleges and Universities (MnSCU)). Educators first hired by MnSCU may elect either TRA coverage or coverage through Minnesota State's Individual Retirement Account Plan within one year of eligible employment.

#### **B.** Benefits Provided

The PERA and the TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

#### 1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

Benefit increases are provided to benefit recipients each January. GERF benefit recipients receive a future annual increase equal to 50.0 percent of the Social Security Cost of Living Adjustment, not less than 1.0 percent and not more than 1.5 percent. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age (not applicable to Rule of 90 retirees, disability benefit recipients, or survivors). A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30, will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of June 30, will receive a pro rata increase.

#### 2. TRA Benefits

The TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statutes and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

#### **Tier I Benefits**

| Step-Rate Formula   | Percentage per Year | ;<br> |
|---|---------------------|-------|
| Basic Plan  |                     |       |
| First 10 years of service   | 2.2                 | %     |
| All years after   | 2.7                 | %     |
| Coordinated Plan  |                     |       |
| First 10 years if service years are up to July 1, 2006                      | 1.2                 | %     |
| First 10 years if service years are July 1, 2006 or after                   | 1.4                 | %     |
| All other years of service if service years are up to July 1, 2006          | 1.7                 | %     |
| All other years of service if service years are up to July 1, 2006 or after | 1.9                 | %     |

#### With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) Three percent per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

#### **Tier II Benefits**

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated Plan members and 2.7 percent for Basic Plan members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

#### C. Contributions

Minnesota Statutes set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

## 1. GERF Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Coordinated Plan members were required to contribute 6.5 percent of their annual covered salary in fiscal year 2019 and the District was required to contribute 7.5 percent for Coordinated Plan members. The District's contributions to the GERF for the year ended June 30, 2019, were \$1,492,966. The District's contributions were equal to the required contributions as set by state statutes.

## 2. TRA Contributions

Minnesota Statutes, Chapter 354 sets the rates for employer and employee contributions. Rates for each fiscal year were:

|                         | Year Ended June 30, |          |          |          |          |          |
|-------------------------|---------------------|----------|----------|----------|----------|----------|
|                         | 20                  | 17       | 20       | 18       | 20       | 19       |
|                         | Employee            | Employer | Employee | Employer | Employee | Employer |
|                         |                     |          |          |          |          |          |
| Basic Plan              | 11.00 %             | 11.50 %  | 11.00 %  | 11.50 %  | 11.00 %  | 11.71 %  |
| <b>Coordinated Plan</b> | 7.50 %              | 7.50 %   | 7.50 %   | 7.50 %   | 7.50 %   | 7.71 %   |

The District's contributions to the TRA for the plan's fiscal year ended June 30, 2019, were \$4,071,634. The District's contributions were equal to the required contributions for each year as set by state statutes.

The following is a reconciliation of employer contributions in the TRA's Comprehensive Annual Financial Report (CAFR) Statement of Changes in Fiduciary Net Position to the employer contributions used in the Schedule of Employer and Nonemployer Pension Allocations:

| E. J. C. T. C. T. C. T. C. T.  | in thou | isands  |
|--|---------|---------|
| Employer contributions reported in the TRA's CAFR Statement of Changes in Fiduciary Net Position | \$      | 378,728 |
| Add employer contributions not related to future contribution efforts                            |         | 522     |
| Deduct the TRA's contributions not included in allocation  |         | (471)   |
| Total employer contributions   |         | 378,779 |
| Total nonemployer contributions  |         | 35,588  |
| Total contributions reported in the Schedule of Employer and Nonemployer Pension Allocations     | \$      | 414,367 |

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. The TRA has rounded percentage amounts to the nearest ten thousandths.

#### **D.** Pension Costs

#### 1. **GERF Pension Costs**

At June 30, 2019, the District reported a liability of \$16,065,821 for its proportionate share of the GERF's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2017, through June 30, 2018, relative to the total employer contributions received from all of the PERA's participating employers. The District's proportionate share was 0.2896 percent at the end of the measurement period and 0.2894 percent for the beginning of the period.

The District's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$16 million. The state of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The amounts recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$<br>16,065,821 |
|---|------------------|
| State's proportionate share of the net pension liability    |                  |
| associated with the District                                | \$<br>526,989    |

For the year ended June 30, 2019, the District recognized pension expense of \$735,891 for its proportionate share of the GERF's pension expense. In addition, the District recognized an additional \$122,893 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota's contribution of \$16 million to the GERF.

At June 30, 2019, the District reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred<br>Outflow<br>of Resour | S   | Deferred<br>Inflows<br>Resources |
|--|----------------------------------|-----|----------------------------------|
| Differences between expected and actual economic experience  | \$ 424,                          | 955 | \$<br>448,831                    |
| Changes in actuarial assumptions                             | 1,470,                           | 041 | 1,804,313                        |
| Differences between projected and actual investment earnings |                                  | _   | 1,730,498                        |
| Changes in proportion  | 538.                             | 206 | _                                |
| District's contributions to the GERF subsequent to the       | ,                                |     |                                  |
| measurement date   | 1,492,                           | 966 | _                                |
| Total  | \$ 3,926,                        | 168 | \$<br>3,983,642                  |

A total of \$1,492,966 reported as deferred outflows of resources related to pensions resulting from district contributions to the GERF subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to the GERF pensions will be recognized in pension expense as follows:

|             |        | Pension     |  |  |  |
|-------------|--------|-------------|--|--|--|
| Year Ending |        | Expense     |  |  |  |
| June 30,    | Amount |             |  |  |  |
|             |        |             |  |  |  |
| 2020        | \$     | 741,866     |  |  |  |
| 2021        | \$     | (657,113)   |  |  |  |
| 2022        | \$     | (1,299,871) |  |  |  |
| 2023        | \$     | (335,322)   |  |  |  |

#### 2. TRA Pension Costs

At June 30, 2019, the District reported a liability of \$60,680,123 for its proportionate share of the TRA's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the TRA in relation to total system contributions, including direct aid from the state of Minnesota, City of Minneapolis, and Special School District No. 1, Minneapolis Public Schools. The District's proportionate share was 0.9661 percent at the end of the measurement period and 0.9473 percent for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to the TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$<br>60,680,123 |
|---|------------------|
| State's proportionate share of the net pension liability    |                  |
| associated with the District                                | \$<br>5,701,256  |

For the year ended June 30, 2019, the District recognized negative pension expense of \$21,139,366. It also recognized \$3,979,096 as a decrease to pension expense (and grant revenue) for the support provided by direct aid.

At June 30, 2019, the District reported its proportionate share of the TRA's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred      | Deferred       |
|---|---------------|----------------|
|   | Outflows      | Inflows        |
|   | of Resources  | of Resources   |
| D:00 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1                    |               |                |
| Differences between expected and actual economic experience | \$ 658,716    | \$ 1,202,611   |
| Changes in actuarial assumptions                            | 75,965,745    | 103,046,567    |
| Difference between projected and actual investment earnings | _             | 4,766,416      |
| Changes in proportion                                       | 4,409,313     | 337,682        |
| District's contributions to the TRA subsequent to the       |               |                |
| measurement date  | 4,071,634     |                |
| Total   | \$ 85,105,408 | \$ 109,353,276 |

A total of \$4,071,634 reported as deferred outflows of resources related to pensions resulting from district contributions to the TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to the TRA pensions will be recognized in pension expense as follows:

| Pension         |
|-----------------|
| Expense         |
| Amount          |
|                 |
| \$ 6,214,495    |
| \$ 3,322,993    |
| \$ 265,985      |
| \$ (22,349,363) |
| \$ (15,773,612) |
|                 |

#### E. Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

| Assumptions               | GERF  | TRA  |
|---------------------------|-------|--|
|                           |       |  |
| Inflation                 | 2.50% | 2.50%  |
| Wage growth rate          |       | 2.85% for 10 years, and 3.25% thereafter                   |
| Active member payroll     | 3.25% | 2.85% to 8.85% for 10 years, and 3.25% to 9.25% thereafter |
| Investment rate of return | 7.50% | 7.50%  |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants for all plans were based on RP-2014 tables for males or females, as appropriate, with slight adjustments. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the GERF and 1.00 percent for January 2019 through January 2023, then increasing by 0.10 percent each year up to 1.50 percent annually for the TRA.

Actuarial assumptions used in the June 30, 2018 valuations were based on the results of actuarial experience studies. The most recent experience studies were completed in 2015. Economic assumptions were updated in 2017 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions occurred in 2018:

#### 1. GERF

#### **CHANGES IN ACTUARIAL ASSUMPTIONS**

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

#### **CHANGES IN PLAN PROVISIONS**

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio, to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

#### 2. TRA

#### **CHANGES IN ACTUARIAL ASSUMPTIONS**

- The cost of living adjustment (COLA) was reduced from 2.0 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.

- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90.00 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.
- The single discount rate changed from 5.12 percent to 7.50 percent.

The Minnesota State Board of Investment, which manages the investments of the PERA and the TRA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class                          | Target Allocation | Long-Term Expected<br>Real Rate of Return |
|--------------------------------------|-------------------|---|
| Domestic stocks                      | 36 %              | 5.10 %                                    |
| International stocks                 | 17                | 5.30 %                                    |
| Bonds (fixed income)                 | 20                | 0.75 %                                    |
| Alternative assets (private markets) | 25                | 5.90 %                                    |
| Cash                                 | 2                 | - %                                       |
| Total                                | 100 %             |   |

# F. Discount Rate

#### 1. GERF

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the GERF was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### 2. TRA

The discount rate used to measure the total pension liability was 7.50 percent. This is an increase from the discount rate at the prior measurement date of 5.12 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2018 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate.

# G. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

|  | <br>Decrease in scount Rate | <br>Discount<br>Rate | <br>Increase in scount Rate |
|--|-----------------------------|----------------------|-----------------------------|
| GERF discount rate   | 6.50%                       | 7.50%                | 8.50%                       |
| District's proportionate share of the GERF net pension liability | \$<br>26,109,015            | \$<br>16,065,821     | \$<br>7,775,450             |
| TRA discount rate  | 6.50%                       | 7.50%                | 8.50%                       |
| District's proportionate share of the TRA net pension liability  | \$<br>96,299,109            | \$<br>60,680,123     | \$<br>31,294,694            |

# H. Pension Plan Fiduciary Net Position

Detailed information about the GERF's fiduciary net position is available in a separately issued PERA financial report. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103; or by calling (651) 296-7460 or (800) 652-9026.

Detailed information about the TRA's fiduciary net position is available in a separately issued TRA financial report. That report can be obtained at the TRA website at www.MinnesotaTRA.org; by writing to the TRA at 60 Empire Drive, Suite 400, St. Paul, Minnesota 55103; or by calling (651) 296-2409 or (800) 657-3669.

#### NOTE 8 - DEFINED BENEFIT PENSION PLAN - DISTRICT

# A. Plan Description

The District provides pension benefits to certain eligible employees through its Pension Benefits Plan, a single-employer defined benefit plan administered by the District. The following employee groups receive the benefit: Superintendent, Superintendent's Advisory Council, Administrators (Edina Administrative Council), Controller, Director of Buildings and Grounds, Human Resources Manager, Strategic Planner/Analyst, Teachers, Community Education Services Coordinators, Classified Supervisors, Confidential Employees, Other Support Staff, and Edina Professional Association of Support Staff (EPASS). Severance benefits for the Superintendent and EPASS were added to the plan during the year ended June 30, 2018. All pension benefits are based on contractual agreements with these employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. The benefits are calculated using a predetermined number of days depending on the employee group, multiplied by the employee's daily base pay, or in certain cases, a fixed amount per year of service. Payments are made in either a lump sum or installments to a 403(b) plan or in a lump sum directly to the employee. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a separate financial report.

#### **B.** Contributions and Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District has not established a trust fund to finance these pension benefits.

# C. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

| Retirees and beneficiaries receiving benefits | 31  |
|---|-----|
| Active plan members                           | 752 |
|   |     |
| Total members                                 | 783 |

## D. Actuarial Methods and Assumptions

The total pension liability was determined by an actuarial study with a valuation date as of July 1, 2018 and measurement date as of July 1, 2018, using the entry-age method and the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Discount rate                | 3.50% |
|------------------------------|-------|
| 20-year municipal bond yield | 3.50% |
| Inflation rate               | 2.50% |
| Salary increases             | 3.00% |

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale. The previous study used the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale. The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

The municipal bond rate assumption was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds as of the measurement date.

# NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

#### E. Discount Rate

The discount rate used to measure the total pension liability was 3.50 percent. The projection of cash flows used to determine the discount rate was determined by estimating the long-term investment yield on the employer funds that will be used to pay benefits as they come due. Since the plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield rate. The District's discount rate used in the prior measurement date was 3.40 percent.

# F. Changes in the Total Pension Liability

|  | T  | otal Pension<br>Liability |
|--|----|---------------------------|
| Beginning balance                                  | \$ | 11,059,556                |
| Changes for the year                               |    |                           |
| Service cost                                       |    | 712,907                   |
| Interest   |    | 390,691                   |
| Assumption changes                                 |    | (121,816)                 |
| Plan changes                                       |    | 74,470                    |
| Differences between expected and actual experience |    | 756,667                   |
| Benefit payments                                   |    | (567,874)                 |
| Total net changes                                  |    | 1,245,045                 |
| Ending balance                                     | \$ | 12,304,601                |

# G. Total Pension Liability Sensitivity to Discount Rate Changes

The following presents the net pension liability of the District, as well as what the District's total pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

|                         | 1% Decrease in Discount Rate | Discount<br>Rate | 1% Increase in Discount Rate |  |
|-------------------------|------------------------------|------------------|------------------------------|--|
| Pension discount rate   | 2.50%                        | 3.50%            | 4.50%                        |  |
| Total pension liability | \$ 13,254,314                | \$ 12,304,601    | \$ 11,405,454                |  |

## H. Pension Expense and Related Deferred Outflows and Deferred Inflows of Resources

The District recognized pension expense of \$1,202,437 in the current year, and at year-end reported the following deferred outflows and inflows of resources related to pensions from the following sources:

|  |    | Deferred Outflows of Resources |    | Deferred Inflows of Resources |  |
|--|----|--------------------------------|----|-------------------------------|--|

| Total  | \$ | 1,274,913                      | \$ | 425,540                       |  |

# NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

A total of \$581,302 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30, | _  | Pension<br>Expense |  |  |
|----------------------|----|--------------------|--|--|
| 2020                 | \$ | 24,369             |  |  |
| 2021                 | \$ | 24,369             |  |  |
| 2022                 | \$ | 24,369             |  |  |
| 2023                 | \$ | 24,369             |  |  |
| 2024                 | \$ | 24,369             |  |  |
| Thereafter           | \$ | 146.226            |  |  |

# NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

#### A. Plan Description and Benefits Provided

The District provides post-employment benefits to certain eligible employees through a single-employer defined benefit OPEB Plan administered by the District. All post-employment benefits are based on contractual agreements with employee groups, with benefit eligibility based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a separate financial report.

All retirees of the District have the option under state law to continue their health insurance coverage through the District from the time of retirement until the employee reaches the age of eligibility for Medicare. For members of certain employee groups, the District pays for all or part of the eligible retiree's premiums for medical and/or dental insurance from the time of retirement untilg the employee reaches the age of eligibility for Medicare. Benefits paid by the District differ by bargaining unit, with some contracts specifying a certain dollar amount per month, and some covering premium costs as defined within each collective bargaining agreement. Retirees not eligible for these district-paid premium benefits must pay the full district premium rate for their coverage.

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

# **B.** Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District has not established a trust fund to finance these OPEB benefits.

#### NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

# C. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

| Retirees and beneficiaries receiving benefits | 64    |
|---|-------|
| Active plan members                           | 1,157 |
|   |       |
| Total members                                 | 1,221 |

# D. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial study with a valuation date as of July 1, 2018 and measurement date as of July 1, 2018, using the entry-age method, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Discount rate                | 3.50%  |
|------------------------------|--|
| 20-year municipal bond yield | 3.50%  |
| Inflation rate               | 2.50%  |
| Salary increases             | 3.00%  |
| Medical trend rate           | 6.50% as of July 1, 2018 grading to 5.00% over 6 years |
| Dental trend rate            | 4.00%  |

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale. The previous study used the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale. The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

Future retirees electing coverage is assumed to be 100 percent when a pre-age 65 subsidy is available, and 50 percent when a pre-age 65 subsidy is not available. Married future retirees electing spouse coverage is assumed to be 100 percent when a pre-age 65 subsidy is available, and 25 percent when a pre-age 65 subsidy is not available.

Healthcare trend rates were changed since the last study to better anticipate short-term and long-term medical increases

The municipal bond rate assumption was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds as of the measurement date.

#### E. Discount Rate

The discount rate used to measure the total OPEB liability was 3.50 percent. The projection of cash flows used to determine the discount rate was determined by estimating the long-term investment yield on the employer funds that will be used to pay benefits as they come due. Since the plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield rate. The District discount rate used in the prior measurement date was 3.40 percent.

# NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

# F. Changes in the Total OPEB Liability

|  | Total OPEB Liability |             |
|--|----------------------|-------------|
| Beginning balance                                  | \$                   | 19,910,889  |
| Changes for the year                               |                      |             |
| Service cost                                       |                      | 1,082,683   |
| Interest   |                      | 697,232     |
| Assumption changes                                 |                      | 5,718       |
| Differences between expected and actual experience |                      | (1,470,574) |
| Benefit payments                                   |                      | (981,707)   |
| Total net changes                                  |                      | (666,648)   |
| Ending balance                                     | \$                   | 19,244,241  |

# G. Total OPEB Liability Sensitivity to Discount and Healthcare Cost Trend Rate Changes

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

|                      | 1% Decrease in Discount Rate | Discount<br>Rate | 1% Increase in Discount Rate |
|----------------------|------------------------------|------------------|------------------------------|
| OPEB discount rate   | 2.50%                        | 3.50%            | 4.50%                        |
| Total OPEB liability | \$ 20,616,285                | \$ 19,244,241    | \$ 17,924,871                |

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

|                      | 1% Decrease in Healthcare Trend Rates  | Healthcare Trend Rates                 | 1% Increase in Healthcare Trend Rates  |
|----------------------|--|--|--|
| Medical trend rate   | 5.50% decreasing to 4.00% over 6 years | 6.50% decreasing to 5.00% over 6 years | 7.50% decreasing to 6.00% over 6 years |
| Dental trend rate    | 3.00%                                  | 4.00%                                  | 5.00%                                  |
| Total OPEB liability | \$ 17,641,720                          | \$ 19,244,241                          | \$ 21,112,214                          |

# NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

# H. OPEB Expense and Related Deferred Outflows and Deferred Inflows of Resources

The District recognized OPEB expense of \$1,617,153 in the current year, and at year-end reported the following deferred outflows and inflows of resources related to OPEB from the following sources:

|  | Deferred Outflows of Resources | Deferred<br>Inflows<br>of Resources |
|--|--------------------------------|-------------------------------------|
| Differences between expected and actual economic experience<br>Changes in actuarial assumptions<br>District's contributions subsequent to the measurement date | \$ -<br>5,082<br>1,005,875     | \$ 1,307,176<br>-<br>-              |
| Total  | \$ 1,010,957                   | \$ 1,307,176                        |

A total of \$1,005,875 reported as deferred outflows of resources related to OPEB resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30, | Pension<br>Expense          |  |
|----------------------|-----------------------------|--|
| 2020                 | \$<br>(162,762)             |  |
| 2021                 | \$<br>(162,762) $(162,762)$ |  |
| 2022                 | \$<br>(162,762)             |  |
| 2023                 | \$<br>(162,762)             |  |
| 2024                 | \$<br>(162,762)             |  |
| Thereafter           | \$<br>(488, 284)            |  |

## NOTE 10 - FLEXIBLE BENEFIT PLAN

The District has a flexible benefit plan, which is classified as a "cafeteria plan" (the Plan) under § 125 of the IRC. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pretax dollars withheld from payroll checks to the Plan for healthcare and dependent care benefits. Payments are made from the Plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from January 1 to December 31, each participant designates a total amount of pretax dollars to be contributed to the Plan during the year. The Plan is administered by the District and is accounted for in the District's General Fund. At June 30, the District is contingently liable for claims against the total amount of participants' annual contributions to the medical reimbursement portion of the Plan, whether or not such contributions have been made.

All property of the Plan and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the Plan are equal to those of general creditors of the District in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

## NOTE 11 - COMMITMENTS AND CONTINGENCIES

#### A. Federal and State Revenues

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

#### **B.** Construction Commitments

At June 30, 2019, the District had commitments totaling \$3,247,369 under various construction contracts for which the work was not yet completed.

## C. Legal Claims

The District is a defendant in various lawsuits. Although the outcomes of these lawsuits are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position.

## **NOTE 12 – SUBSEQUENT EVENT**

In October 2019, the District approved the sale of \$20,090,000 of General Obligation School Building Refunding Bonds, Series 2019B. The bonds will be used to finance a current refunding of the 2021 through 2024 maturities of the District's General Obligation School Building Refunding Bonds, Series 2011B. The 2019B bonds will have an average coupon interest rate of 5.0 percent and a final maturity date of February 1, 2024.

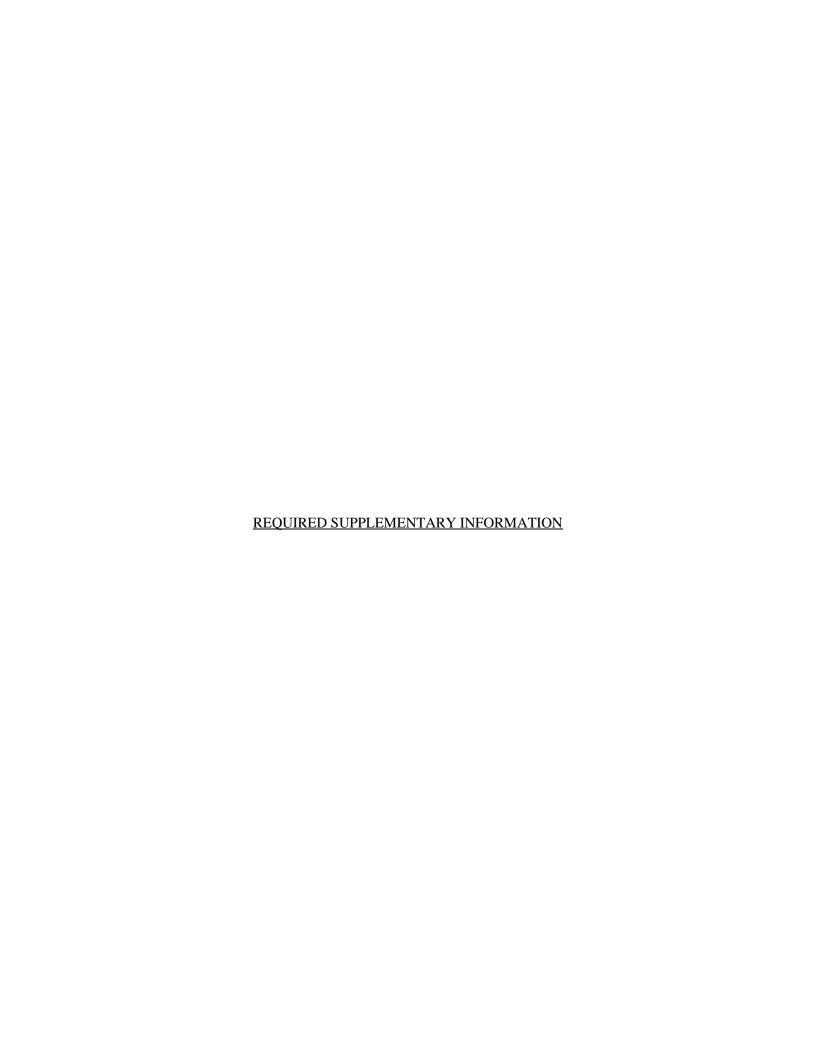

## NOTE 13 - GASB STANDARDS ISSUED BUT NOT YET IMPLEMENTED

GASB Statement No. 84, *Fiduciary Activities*, is intended to enhance consistency and comparability of fiduciary activity reporting by state and local governments. It is also meant to improve the usefulness of fiduciary activity information primarily for assessing the accountability of governments in their roles as fiduciaries.

This statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

The MDE has also issued guidance for implementing this standard, which will impact the reporting of extracurricular student activity accounts previously not under School Board control, beginning in the 2019–2020 fiscal year. This new guidance provided by the MDE will require the activities currently presented separately in this financial statement to be operated under School Board control and reported as part of the District's General Fund for the year ending June 30, 2020.

Public Employees Retirement Association Pension Benefits Plan Schedule of District's and Nonemployer Proportionate Share of Net Pension Liability Year Ended June 30, 2019

Notes to Required Supplementary Information June 30, 2019

## PERA – GENERAL EMPLOYEES RETIREMENT FUND

## 2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio, to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

#### 2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

## 2017 CHANGES IN PLAN PROVISIONS

• The state's special funding contribution increased from \$6 million to \$16 million.

#### 2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

Notes to Required Supplementary Information (continued) June 30, 2019

## PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

## 2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035, and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

#### 2015 CHANGES IN PLAN PROVISIONS

• On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Retirement Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

#### 2015 CHANGES IN ACTUARIAL ASSUMPTIONS

• The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

Notes to Required Supplementary Information (continued) June 30, 2019

## TEACHERS RETIREMENT ASSOCIATION (TRA)

#### 2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The cost of living adjustment (COLA) was reduced from 2.00 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90.00 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.
- The single discount rate changed from 5.12 percent to 7.50 percent.

## 2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The COLA was assumed to increase from 2.00 percent annually to 2.50 percent annually on July 1, 2045.
- The COLA was not assumed to increase to 2.50 percent, but remain at 2.00 percent for all future years.
- Adjustments were made to the CSA loads. The active load was reduced from 1.40 percent to zero percent, the vested inactive load increased from 4.00 percent to 7.00 percent, and the nonvested inactive load increased from 4.00 percent to 9.00 percent.
- The investment return assumption was changed from 8.00 percent to 7.50 percent.
- The price inflation assumption was lowered from 2.75 percent to 2.50 percent.
- The payroll growth assumption was lowered from 3.50 percent to 3.00 percent.

Notes to Required Supplementary Information (continued) June 30, 2019

## TEACHERS RETIREMENT ASSOCIATION (TRA) (CONTINUED)

## 2017 CHANGES IN ACTUARIAL ASSUMPTIONS (CONTINUED)

- The general wage growth assumption was lowered from 3.50 percent to 2.85 percent for 10 years, followed by 3.25 percent thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.
- The single discount rate changed from 4.66 percent to 5.12 percent.

## 2016 CHANGES IN ACTUARIAL ASSUMPTIONS

• The single discount rate was changed from 8.00 percent to 4.66 percent.

#### 2015 CHANGES IN PLAN PROVISIONS

• The Duluth Teachers Retirement Fund Association was merged into the TRA on June 30, 2015.

## 2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The annual COLA for the June 30, 2015 valuation assumed 2.00 percent. The prior year valuation used 2.00 percent, with an increase to 2.50 percent commencing in 2034.
- The discount rate used to measure the total pension liability was 8.00 percent. This is a decrease from the discount rate at the prior measurement date of 8.25 percent.

Notes to Required Supplementary Information (continued) June 30, 2019

## **PENSION BENEFITS PLAN**

#### 2018 CHANGES IN PLAN PROVISIONS

• Severance benefits are now available for the Edina Professional Association of Support Staff and the Superintendent.

## 2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.
- The discount rate was changed from 3.40 percent to 3.50 percent.

#### 2017 CHANGES IN ACTUARIAL ASSUMPTIONS

• The discount rate was changed from 2.90 percent to 3.40 percent.

#### 2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality table was updated from RP-2000 projected to 2014 with Scale BB, to the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale.
- The withdrawal table for all employees and retirement tables for only employees eligible to retire with Rule of 90 also were updated.
- The discount rate was changed from 4.00 percent to 2.90 percent.

## OTHER POST-EMPLOYMENT BENEFITS PLAN

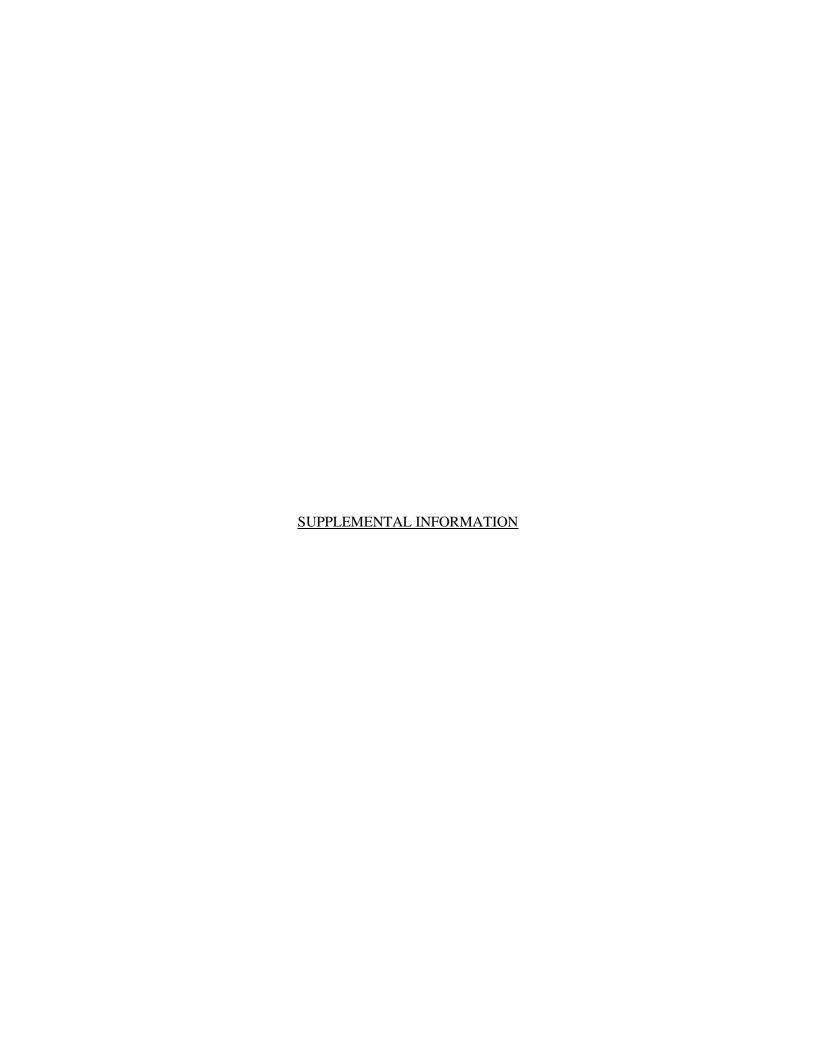

## 2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The healthcare trend rates were changed to better anticipate short term and long-term medical increases.
- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.
- The discount rate was changed from 3.40 percent to 3.50 percent.

## 2017 CHANGES IN ACTUARIAL ASSUMPTIONS

• The discount rate was changed from 2.90 percent to 3.40 percent.

Note: Legislative changes in the "tax shift" impacted the amount of tax revenue recognized in fiscal years 2011 and 2014.

These changes were offset by an adjustment to state aid payments by an equal amount.

Note 1: The Schedule of Expenditures of Federal Awards is prepared on the accrual basis of accounting. The information in this schedule is presented in accordance with the OMB's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from the amounts presented in, or used in the preparation of, the District's basic financial statements.

Note 2: All pass-through entities listed above use the same CFDA numbers as the federal grantors to identify these grants, and have not assigned any additional identifying numbers.

Note 3: The District did not elect to use the 10 percent de minimis indirect cost rate.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the School Board and Management of Independent School District No. 273 Edina, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 273, Edina, Minnesota (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 13, 2019.

#### INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

-89- (continued)

#### COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR

#### EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL

# OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the School Board and Management of Independent School District No. 273 Edina, Minnesota

#### REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited Independent School District No. 273, Edina, Minnesota's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget's *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the Summary of Audit Results section of the accompanying Schedule of Findings and Questioned Costs.

# MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

(continued)

#### OPINION ON EACH MAJOR FEDERAL PROGRAM

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to on the previous page that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

#### REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to on the previous page. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### PURPOSE OF THIS REPORT

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT

#### ON MINNESOTA LEGAL COMPLIANCE

To the School Board and Management of Independent School District No. 273 Edina, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 273, Edina, Minnesota (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 13, 2019.

#### MINNESOTA LEGAL COMPLIANCE

The Minnesota Legal Compliance Audit Guide for School Districts, promulgated by the State Auditor pursuant to Minnesota Statutes § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the Minnesota Legal Compliance Audit Guide for School Districts. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

# PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.

Malloy, Montague, Karnowski, Radosewich & Co., P. A. Minneapolis, Minnesota
